PROFESSIONAL EXPERIENCE

Senior Full Stack Developer

Jan 2022 – Present

- Designed and developed enterprise web applications using ASP.NET Core and React.
- Built scalable REST APIs supporting millions of transactions annually.
- Migrated legacy .NET Framework applications to .NET 8 microservices.
- Developed reusable React components improving development productivity.
- Implemented JWT authentication and role-based authorization.
- Designed SQL Server databases and optimized complex queries.
- Containerized applications using Docker and deployed services on Azure Kubernetes Service (AKS).
- Implemented CI/CD pipelines using GitHub Actions and Azure DevOps.
- Improved application performance through caching, asynchronous programming, and query optimization.

PROJECTS

- Developed customer onboarding and loan management modules for a banking platform.
- Designed secure REST APIs using ASP.NET Core.
- Integrated Azure Active Directory authentication.
- Optimized SQL queries reducing API response times by 40%.
